One of the best benefits of working in this industry is the opportunity to see the world and connect heart to heart with so many people. Did you know that Young Living is in over 100 different countries all over the world?

One of my dearest friends in the world and business colleague Valerie and my daughter Kortni and I traveled to Egypt and Petra for two weeks to take part in the filming of the Frankincense Trail documentary with Gary and Mary Young. Wow, what an opportunity! This was a once in a lifetime adventure that I will be talking about my whole life. I even created a power point presentation to share with my organization. Shortly after our return my husband and I flew to the other side of the world to attend the Diamond Club in Thailand. We were treated like Kings and Queens with our own Villas and private butlers. This club adventure is the highlight of my year of hard

work and time committed to my growing Young Living Business. Jim and I traveled to Malaysia where we visited our 1st Malaysian Young Living Silver, Fee and Nigel Boey. With all this traveling and travel miles adding up, the most exciting trip this year for me was to NY to celebrate my son, Dallas' graduation from Fordham University. I think this is a personal highlight in my life to have both my children graduate with degrees. I AM SO PROUD OF BOTH KORTNI AND DALLAS!

They both are pursuing a career with Young Living, which is keeping me on my toes!

I look forward to connecting with so many of you in your traveling experience to Utah in June to attend the Young Living Grand Convention. If when reading this article, so many of you would like to travel more with building your Young Living Business, please feel free to contact me so we can explore together the many

opportunities to see the world sharing your story and the gift of Young Living.

Bags packed and ready to go!

Free
True Source
and Grapefruit!

Did you know? Each month Young Living offers distributors an opportunity to save money and receive products at a huge savings. You can be good to your body when you qualify for this month's PV promotion! From June 1-30, 2010, when you place an order of **170 PV** you'll receive a 30-pack of [True Source™](#) and a 15 ml bottle of [grapefruit essential oil absolutely free!](#) True Source is a whole-food based multivitamin that uses nutrient-dense superfruits, plants, and vegetables to deliver a full spectrum of bioactive vitamins, minerals, antioxidants, and phytonutrients. Pair with grapefruit essential oil to help support your weight management goals. Simply inhale, diffuse, or add a few drops of grapefruit essential oil to your water for a tasty alternative. *Check for the PV Promotion each month*

Marcella Vonn Harting's Mission Statement

My mission is merging science and miracles by weaving state of the art knowledge of the essences, Chronobiotic™ Nutrition, body language, Conscious Communications, innovative health technologies, emotional healing and abundant prosperity strategies into our new Global Wisdom.

I am passionately committed to sharing the systems I use to embody personal fulfillment with my global family.

Supersensory Nature of Essential Oils

Why are moths attracted to a sap-filled green wood fire but not a dry wood fire?

The ESSENTIAL OILS in green wood emit THOUSANDS of narrowband omni directional long-distance INFRARED "radio" signals not found in dry wood (not containing essential oils).

If you're still thinking of essential oils in terms of the conventional "odor" model, you're behind the scientific curve.

Much of the "healing" and immune-modulating qualities of essential oils are due to these many, many narrowband (1-30 micrometer) infrared "radio" signals that can be broadcast in a straight line for THOUSANDS OF MILES.

Essential oil irradiation

has much in common with mid-wavelength infrared missile technology, "thermal imaging" radiation, and far infrared laser applications.

Essential oil irradiation is more than a local event. It is a connective continuum and one of the underpinnings of so-called "extrasensory perception" (ESP).

Indeed, in the near or distant future (depending on how soon scientists stop acting like a hen sitting on a hard-boiled egg), the world will be powered by essential oil wavelengths providing up to 80 percent efficiency compared to the usual solar collector dish rate of 15 to 20 percent.

By **Atom Bergstrom**
Atom teaches AromaAlchemy workshops in Sedona, Arizona. He is

currently the only person in the world teaching how to AMPLIFY the supersensory qualities of essential oils by circadian eating (using the nutritive technology of Adano Ley) and circulatory anastomosis (using techniques Atom learned personally from the famous Madrid heart surgeon and psychic researcher, Dr. J.M. Sanchez-Perez).

Phone 928.203.0551 for workshop information.

Learn more on the timing function of foods and essential oils by reading the second edition of *Yes No Maybe: Chronobiotic Nutrition*, c. 2010, soon to be released. By G.I. "Atom" Bergstrom, co-author of "Yes, No, Maybe" *Chronobiotic™ Nutrition with Marcella Vonn Harting*.

Organic or GMO

How to Know

Have you ever wondered if the produce you are buying at your local supermarket or health food-store is, in fact, organic?

One of the amazing chapters contained in *Integrative Nutrition* by Joshua Rosenthal is called "What, When and How We Eat." Contained within this chapter is information on "Unlocking the Produce Code." The following passage is quoted from *Integrative Nutrition*: "One way to spot organic produce in the store is to check out each food's price look-up number or PLU. You'll find a PLU label on each piece of produce, attached as a sticker. The International Federation for Produce Coding standardizes PLU codes for every grocery store in the country. Conventionally grown fruits and vegetables have 4-digit numbers and generally begin with a 3 or a 4. Organically grown fruits and vegetables have 5 digits and begin with a 9. Genetically modified fruits and vegetables also have 5 digits and begin with an 8. For example, the PLU for a conventionally grown banana is 4011; for an organic banana it's 94011; and for a genetically modified banana it's 84011."

Unfortunately, the GMO suppliers seem to be able to leave the 8 off their PLU. Check out *Integrative Nutrition* for more information.

Essential Oils for Pets

I am so excited to have 4 new products with Marcella Vonn's *Harting Training System Library*.

Both Marcella and I feel we captured the essence of the basics of YLEO products for dogs and cats. These 4 CDs or DVDs are designed to give you an overview and enlighten you to the possibilities of using the YLEO products with your pets. They are to function as a preview to further educational opportunities with me. Use these sets to inform others of the safe and effective ways to capture

the essences of pure therapeutic grade essential oils.

Dr. Nancy's Tip: Put Purification essential oil in a misting bottle at 1 drop per 2 ounces of water. After each time your pet goes outside mist their feet.

This will cut down on the pollen and dust on their feet and lessen the itching and biting of this seasonal allergy time.

Due to Website and Email issues (the site is being rebuilt now) many of your emails and inquiries have been lost in the shuffle. Dr. Nancy's next Basics of Veterinary Aromatherapy

course (4 part) will begin the end of June. Enrollment is now open by calling the office 702-617-3285. We apologize for the misdirected internet waves.

Please email me with your information to be placed on our contact list.

Young Living

INTERNATIONAL GRAND CONVENTION 2010

June 15-19, 2010
Salt Lake City, Utah

Gary Young's brand new documentary will premiere at the International Grand Convention. Gary's unique insights and extensive research into the startling wellness power of frankincense will make *The One Gift* premiere the highlight of convention.

Your experience at Convention is not complete without a visit to the bustling **Arabian marketplace Product Expo**. And be sure to take advantage of the Spa. **The Spa** is bigger and better than ever. Young Living is offering more Rain-

drop Technique® appointments, as well as regular massages. In addition, the boutique has been enhanced with more spa items, scarves, jewelry, and other items. You may make your appointments on-site at the Salt Palace starting Tuesday, June 15, at 10:00a.m.

Each day at **Kids Oil Camp** will be filled with adventure, learning, laughter, and oils. The exciting activities planned include contests, painting, art, and games. In addition, a masseuse from the spa will be coming in each

day and teaching the children about oils. Gary Young will have a fun-filled morning of oil mixing with the children. The kids will also receive tours of the Product Expo, yoga classes, and hands-on experience with the oils. Your child won't want to miss Kids Oil Camp.

Start each morning with an invigorating yoga session enhanced with Young Living Therapeutic Grade™ essential oils. Join Young Living distributors Tracy Griffiths and Nichola Burnett June 16, 17, and 19 from 6:30 to 7:30 a.m.

as they guide you through a practice suitable for all levels of experience. **Aroma Yoga** is free to all convention attendees.

You won't want to miss out on the exciting tour of the newly renovated **Young Living Farm** in Mona, Utah.

If you are a new distributor as of September 18, 2009, you can attend convention for only \$50!

Register Today! You can register online or phone Young Living (see below).
