What are you doing today to THRIVE? I am not talking about survival in today's economic environment, but are you Thriving? When 14 million Americans are out of work, hovering around 9%. We have the highest number of people on food stamps in our history—15% of Americans on food stamps right now, which equals 25 million Americans—these are not easy times!

I ask you the question, When things are seemingly out of control, what can you control?

Looking at a poll taken 63% of Americans now believe their best times are behind them. That the quality of life for themselves and their children will be worse in the future than today! And France and other European countries the stats are over 70%.

When there is no possibility of a great future—people don't even TRY! Which I called learned helplessness. So, why am I writing about such gloom and despair? Maybe to create a place to start....see lots of things happen to all of us throughout our lives. Terrible things and

stressful things. A great man said, I am not defined by this moment—I am defined by what I do with this moment!

The Young living convention this year is titled VITALITY. Let's start with Vitality, Webster defines vitality as, In such a manner as to give life.

One of my most influential books I have ever read is, MAN'S SEARCH FOR MEANING by Viktor Frankl. Between 1942 and 1945, psychiatrist Viktor labored in four different Nazi death camps, including Auschwitz, while his parents, brother, and pregnant wife perished.

Based on his own experience and the stories of his many patients, Frankl argues that we cannot avoid suffering but we can choose how to cope with it, find meaning in it, and move forward with renewed purpose.

I have 3 steps to assist us with creating Thriving.

Step 1. See things as they are. No BSing yourself! Tell the truth. We have great resources and can add value.

Step 2. See it better than it is—create a compelling future. Someone has it worse— WITHOUT A VISION, PEOPLE PERISH!

Step 3.

1. Feed your mind— Leaders are Readers!
2. Make your Body stronger—mind & body connection
3. Find a role model and get a plan
4. Help someone worse off than you.

In closing let me congratulate all of you that are committed to becoming the best you can be and reaching your full potential. In our world of essential oils and Young Living that looks like going to the convention and sharing Young Living all over the world. I look forward to seeing you there, please stop me and say HI and if I can assist you in any way with this information please ask.

Everybody wants to grow, but nobody wants to change! This is our moment! How will you define this for you?

The Secret to Living is Giving,
Marcella Vonn Harting

Young Living Convention

Vitality - Live For Today

September 22-24

Lake Buena Vista, Florida

*Be the First to Sample New Products at
the Convention Product Expo!*

One of the highlights of Young Living conventions is the Product Expo, where you have the exclusive opportunity to sample and learn about our newest products. Come and enjoy the atmosphere of excitement as you mingle with other distributors, view live product demonstrations, and learn from a variety of informational booths throughout the expo. In addition, you will receive special discounts if you purchase products at convention, including half-price shipping on orders of 250–299 PV or free shipping on orders of 300 PV or higher.

Acquire the tools you need to create lasting purpose in your life by attending interactive and educational workshops presented by natural-health experts from around the world.

Start living for today by registering for convention! It will leave you feeling inspired, energized, and ready to savor each step in your life's journey.

Begin your journey to vitality by visiting www.youngliving.com/2011convention today!

Head Notes and Trees

Zone 1 morning essential oils — from 12:30 am to 12:00 noon — tend to have top note vapor pressures — high volatility, high flash-off rates, lighter molecular weights.

Top note essential oils are Sun-seekers, tending to float up to the morning Zone 1 treetops, hitching a hydraulic ride up the sap as if their droplets were microscopic hydrogen dirigibles.

Top notes are known as HEAD NOTES — hence, “brain notes.” Top note essential oils

also align and resonate with skin, hair, nails, teeth, brain, pineal gland, oral glands, adrenal medulla, breasts, and LUNGS.

Valerie Gennari

Cooksley (Aromatherapy: A Lifetime Guide to Healing with Essential Oils, 1996) wrote, "It is interesting how most essential oils useful in respiratory ailments are those that are distilled from the bark, leaves, berries, and branches of certain trees."

Indeed, morning is the optimum time to support, sustain, and strengthen the lungs, especially at Lung Time (3:00-5:00 am) and its 90-degree shunt, Spleen-Pancreas Time (9:00-11:00 am), aka Citrus Time — Lemon Oil Time, Orange Oil Time, Grapefruit Oil Time, Neroli Oil Time.

Time-Conscious Aromatherapy and Time-Conscious Herbology will both be on the curriculum of the EverNew Highways School of Time-Conscious Living.

For more info and my schedule, stay tuned to Atom Bergstrom Blog on One Radio Network in cyberspace. Here's a Time-Conscious Eating tip ...One of the best midday Zone 2 — 11:30 am to 7:00 pm — sources of both vitamin D-2 and D-3 is ... LETTUCE. The more sunlight lettuce is exposed to, the more vitamin D-2 and D-3 you get.
